**REQUEST FOR ADJUSTMENT OF PATENT TERM  
PURSUANT TO 35 U.S.C. §1.154  
AND  
REDUCTION OF ISSUE FEE FOR SMALL ENTITY**

Sir:

This is to request adjustment of the patent term to reflect the delays encountered in the prosecution of the present application. Enclosed herewith is a copy of the Patent Term Adjustment History as published on the website of the Patent Office. The Notice of Allowance issued July 7, 2004. Thus, the present request is timely.

In accordance with the history published, the present application was filed on May 25, 2001. The first office actions issued September 19, 2002. Applicant promptly responded on October 15, 2002. Instead of proceeding with the substantive examination, a supplemental restriction requirement issued on October 21, 2002 that was not provoked by the Applicant's response. This was immediately responded to by the Applicant on October 30, 2002. Again, a third restriction requirement issued on February 6, 2003 with a different set of requirements. All three restriction requirements should have been issued at the same time.

Nevertheless, the Applicant promptly responded to all of these three separate restriction requirements and did not cause any delay. However, none of these actions were a notification under 35 U.S.C. § 132 as set forth by 35 U.S.C. § 154.

The first non-final rejection representing a notification under 35 U.S.C. § 132 was not issued until July 1, 2003. This is more than 14 months after the filing date as set forth by 35 U.S.C. § 154(b)(1)(A), and represents a delay of 298 days by the Patent Office. A response was filed by the Applicant on October 1, 2003. Thereafter, a Final rejection was issued on December 29, 2003. However, this was not accompanied by a copy of the cited and applied references, requiring Applicant to request a restarting of the period of the response. The copy of the references was not received until April 29, 2004. Thus, a further delay of 88 days. The Examiner improperly attributed this delay to the Applicant. Applicant responded to the final rejection on June 4, 2004. There was no delay caused by the Applicant.

Thus, Applicant had promptly responded to every office action. The restarting of the response period was caused by error of the Patent Office in not providing a copy of the cited and applied references. There was no delay caused by the Applicant. Thus the patent term should have been adjusted in favor of the Applicant by adding 298 days plus 88 days, a total of 386 days.

Applicant further request that the issue fee be reduced to \$665.00, since Applicant claims small entity status for the present application. Up to the present there are no licensees for the application and the Applicant has not changed its status as a small entity.
